Top 3 SMC Sheet Machine Manufacturers in China.

SMC (Sheet Molding Compound) Sheet Machine is the key equipment used to manufacture composite material sheets. These sheets are widely used in automotive, construction, electric power and other fields and are favored for their excellent mechanical properties and corrosion resistance. China's SMC sheet machine manufacturers can not only provide cost-effective SMC sheet machines but also provide flexible customized services and comprehensive pre-sales consultation and after-sales support. These give Chinese SMC sheet machine manufacturers a competitive advantage in the global market.

This article will detail the top 3 SMC sheet machine manufacturers in China. They have won recognition and trust inside and outside the industry for their technological innovation, product quality and market influence.

1. Hebei Maple FRP Industry Co., Ltd.

Location: Hebei

Hebei Maple FRP Industry Co., Ltd. is a premier manufacturer of FRP (Fiberglass Reinforced Plastic) products in Northern China. It specializes in the research, development, and production of advanced FRP products and production lines.

We offer customized equipment to meet diverse and specific application requirements, along with comprehensive FRP product processing technology, composite formulas, and turnkey workshop instructions. Its flagship products include the FRP hydraulic pultrusion machine, pneumatic FRP grating machine, and FRP pipe/tank filament winding machine.

Hebei Maple FRP Industry Co., Ltd. is certified with ISO9001:2000 Quality System, British Royal UKAS, ISO14001, ISO1800, and the National Grade II Installation Certificate of Anti-corrosion. It is highly popular in the domestic fiberglass fabrication industry and has been exported to regions such as Asia, the Middle East, Africa, South America, and beyond.

2. Chengdu Techno FRP Equipment Co., Ltd.

Website: <https://www.technofrp.com>

Location: Chengdu

Since its establishment, **Chengdu Techno FRP Equipment Co., Ltd.** has been focusing on the research and development of SMC sheet machines and supporting equipment, SMC molding dies, etc. It has various technical talents, such as 3D mechanical designers, SMC mold designers, and electrical automation designers.

The processing workshop has more than 30 machine tools, such as CNC machining centers, wire cutting, EDM, grinders, lathes, milling machines, planers, drilling machines, welding equipment, and computer plasma cutting equipment, etc. Every year, 15-25 sets of SMC sheet production lines and more than 50 sets of SMC/BMC molding dies are produced.

The SMC Machines produced by our company embody humanization and technology. The products have many users in China and are exported to foreign markets such as South Korea, Mexico, the Czech Republic, Dubai, Turkey, Egypt, Oman, and India. The excellent product quality and after-sales service have won high praise from most users.

3. Laizhou Huatai Insulation Material Co., Ltd.

Location: Shandong

Laizhou Huatai Insulation Material Co., Ltd. is located in Laizhou, Shandong. It is a professional manufacturer that provides one-stop services from material production, mold making, compression molding, SMC, and DMC equipment production. The company has also developed epoxy glass fiber SMC sheets and epoxy carbon fiber SMC sheet machines. For many years, the company has taken “seeking truth and being pragmatic, working hard and making progress” as its motto, focusing on internal management, improving product quality, and taking integrity as the external basis, striving to build a distinctive integrity brand. It has a good reputation in the industry and is well-received by domestic customers.
